

C2_00 Module Test - Astra RC4

Non-gating closed-book transfer check

Rule: Save a genuine attempt before opening the protected review. This test does not unlock or block Gate A; it diagnoses readiness.

1. SAF1

A sales VP says, "Give me the top five underperforming stores by noon." Before calculation, write the six control items that protect the decision.

Your answer / evidence:

2. SAF2

Turn "Customers are unhappy - find out why" into a scoped analysis question. Include audience, decision, KPI/population, period, grain/source and acceptance.

Your answer / evidence:

3. SAF3

In a requirements meeting, Finance and Operations disagree about what "active customer" means. Write the next four clarification questions and assign an owner/evidence source.

Your answer / evidence:

4. SAF4

Team A defines conversion as buyers / website sessions. Team B uses buyers / eligible leads. Explain why the numbers cannot be compared yet and write a metric contract skeleton.

Your answer / evidence:

5. SAF5

An orders extract is one row per order line while a target file is one row per Region-Month. State both grains and describe the safe comparison path without multiplying targets.

Your answer / evidence:

6. SAF6

You observe that churn is higher among annual-plan customers after a price change. Separate one fact, one assumption, one risk and one limitation; then write a calibrated recommendation.

Your answer / evidence:

7. SAF7

Your transformed revenue is 1.8% higher than Finance. Name at least four validation checks and the first recovery action before delivery.

Your answer / evidence:

8. SAF8

List the minimum handoff package another analyst needs to refresh and defend your analysis next month without contacting you.

Your answer / evidence:

9. SYNTHESIS

A COO asks, "Which city should we fix first?" Data contains duplicate IDs and an unresolved denominator. Explain the exact sequence from request to recommendation and name what would block release.

Your answer / evidence:
