

C2_09 Capstone, Promotion & PL-300 - Start Here

RC4

Astra-parity route: build proof, defend truth, then use certification/career lanes separately.

Step	Action
1	CAP1-CAP14: read one lesson, produce the matching Meridian deliverable, validate it and save evidence.
2	Open the protected capstone review only after the matching genuine attempt. Close it and perform the changed retry before marking mastery.
3	After CAP14: Quick Revision -> optional non-gating Practical Mastery Check -> Final Gate A.
4	Final Gate A is normal. Gate B/C stay hidden and are assigned only after targeted repair; a clean Gate A pass is terminal.
5	PL-300, promotion/job-switch and C2A-to-DE evidence are separate optional/status lanes. None may silently rewrite C2A core completion.

Protection rule	Save a genuine attempt before protected material. Review the method and controls, close the review, solve a changed fresh retry, and save the retry separately.
------------------------	---

Final-gate rule	No percentage gaming. Unresolved grain, reconciliation, privacy/security, truthfulness, reproducibility or unsafe rerun failure blocks the Final Gate.
------------------------	--

Current PL-300 lock	Official Microsoft Learn guide rechecked 20 Sep 2026: skills measured as of 20 Apr 2026; Prepare 25-30%, Model 25-30%, Visualize/Analyze 25-30%, Manage/Secure 15-20%. Recheck again immediately before exam payment/sitting.
