

C2-08 Gate A Protected Review

Marketplace Sellers - open only after saved independent attempt

OBJECTIVE FIXTURE CONTROLS

domain=Marketplace Sellers | stakeholders=4 | seller rows=5 | non negotiable=Finance profitability + Trust risk cannot be hidden | capacity=Seller Ops can act on 20 sellers/week | material limitations=3

STRONG ATTEMPT

The response identifies decision/audience/definitions; separates observations from hypotheses; acknowledges material limitations; surfaces stakeholder goals/non-negotiables; proposes prioritized options/trade-offs; gives a concise recommendation with owner/measure/review rule; prepares direct evidence-based defense; and routes unresolved data/change work to the right owner with acceptance evidence.

CRITICAL FAILURES

Invented facts; correlation presented as proven cause; material limitation omitted; stakeholder constraints silently blended; recommendation has no executable owner/action/measure; priority ignores hard constraint; bluffing an unknown; review/handoff lacks evidence or acceptance criteria.

Gate A competency routing

No percentage gaming

COMPETENCY FLOORS

1 Discovery/requirements. 2 Professional pushback. 3 Priority/displacement. 4 Observation-inference-recommendation. 5 Executive summary. 6 Uncertainty. 7 Actionable recommendation. 8 Conflict resolution. 9 Defense. 10 Cross-functional ownership/handoff. 11 Review/documentation. 12 Senior coaching judgment.

PASS PHILOSOPHY

One unresolved critical evidence, causality, ownership, conflict, recommendation or review-safety failure blocks the Gate even when the writing sounds polished.

NEXT ROUTE

Gate B remains protected unless explicitly assigned after targeted repair.
