

C2-09 Capstone, Promotion & PL-300 - Start Here

Four outcomes, one disciplined route

CORE FIRST

CAP1-CAP14 + Meridian artifacts + Final Gate A are the required C2A core route. Do not start PL-300 simply because it appears in this module; certification is supplementary.

EXACT CORE ROUTE

Read core teaching page -> produce CAP deliverable -> save validation/limitation/explain-back -> protected capstone review -> changed retry. After CAP14: complete Final Gate A independently -> protected Final Gate review only after submission -> targeted repair or pass.

SEPARATE STATUS

Promotion readiness, PL-300 readiness and C2A-to-DE readiness have separate evidence records. A PASS in one never auto-fills another.

C2-09 files and when to open them

No file-hunting and no protected-answer leakage

OPEN DURING CAP

Core Teaching Book; Meridian Data ZIP; Capstone Evidence Workbook; your SQL/PQ/Python/PBIX; CAP protected review only after matching deliverable.

OPEN AFTER CAP

Interview Companion; Promotion/Job-Switch Workbook; Final Gate A; DE Readiness Check after Final Gate. PL-300 Supplement only if you choose certification.

KEEP CLOSED

Final Gate B/C, Final Gate reviews before attempt, PL-300 answer review before closed-book attempt. Mentor must never auto-open protected content when you press Repair.

C2-09 completion and transition rules

Course completion is capability evidence, not title/certification/employment guarantee

C2A CORE COMPLETION

Requires CAP1-CAP14 evidence, Final Gate pass, truthful promotion/readiness workbook update and no unresolved critical validation/integrity failure. PL-300 is not required.

DIRECT DA -> DE ROUTE

Course 2A is OPTIONAL. The recommended direct path remains Course 1 -> C2B Bridge -> Course 3. A learner may skip C2A completely if following C2B's prerequisite and Gate route.

IF USING C2A AS EXTRA PROOF

The C2A DE Readiness Check can summarize your transferable evidence, but it does not override C2B/C3 entry contracts and does not mean you are already job-ready as a Data Engineer.
