

C2-09 Protected Capstone Review

OPEN ONLY AFTER THE MATCHING CAP DELIVERABLE

HOW TO USE

This document deliberately contains no solved Meridian SQL, PBIX, Python pipeline or executive recommendation. Compare evidence contracts only. Preserve first attempt. Close review before changed retry.

CRITICAL ANTI-SHORTCUT RULE

If you copied a solution or opened review before your genuine attempt, the affected CAP evidence is contaminated. Reassess that competency on a changed case rather than marking it mastered.

CAPSTONE RELEASE

All CAP stages must be individually defensible. One unresolved critical grain/reconciliation/definition/privacy/truthfulness failure blocks capstone mastery even if other sections are excellent.

CAP1 protected review signals

Close before changed retry

STRONG SIGNAL

Decision/owner/audience, metric definitions, grains/period, unknowns/risks and acceptance exist before calculations.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Changed request prioritizes margin over growth.

CAP2 protected review signals

Close before changed retry

STRONG SIGNAL

All source grains/keys/processes/raw controls/traps are explicit; incompatible facts are not directly flattened.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Marketing source changes to weekly campaign grain.

CAP3 protected review signals

Close before changed retry

STRONG SIGNAL

SQL output grains are declared; joins/CTEs/windows are justified; raw financial/key/date controls independently reconcile.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Quarter-Segment output replaces Month-Region.

CAP4 protected review signals

Close before changed retry

STRONG SIGNAL

Tool choice follows source shape, repeatability and ownership; raw evidence preserved; JSON/support traps handled visibly.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

50 daily JSON files + another team must operate.

CAP5 protected review signals

Close before changed retry

STRONG SIGNAL

Separate facts, unique dimensions, deliberate relationships/date roles and measure contracts; no many-to-many convenience.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Weekly Channel targets are added.

CAP6 protected review signals

Close before changed retry

STRONG SIGNAL

Observations, hypotheses and recommendations are separated; alternatives tested; no pattern is upgraded to cause.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Marketing data removed; identify which claims weaken.

CAP7 protected review signals

Close before changed retry

STRONG SIGNAL

Report follows decision, uses valid fact contexts, accessible/status-aware design and reconciles to model controls.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

CFO wants one-page monthly review.

CAP8 protected review signals

Close before changed retry

STRONG SIGNAL

10+ independent controls with rule/observed/status/severity/owner; critical FAIL blocks release.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Support duplicate fixed; Product key orphan appears.

CAP9 protected review signals

Close before changed retry

STRONG SIGNAL

Decision-first brief with validated numbers, action/owner/timing/guardrail, material limitation and next evidence.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Intervention budget cut in half.

CAP10 protected review signals

Close before changed retry

STRONG SIGNAL

Another analyst can cold-start from raw data using README/dictionaries/contracts/lineage/runbook/known issues.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Project root moves to a new location/environment.

CAP11 protected review signals

Close before changed retry

STRONG SIGNAL

Answers explain business/technical reasoning, evidence, alternative, failure and production reflection without tool-name hiding.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Same competencies asked with changed wording/no notes.

CAP12 protected review signals

Close before changed retry

STRONG SIGNAL

3+ 60-90 sec stories truthfully distinguish synthetic project from work/production claims and point to evidence IDs.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Target job shifts from Power BI-heavy to governance/refresh-heavy.

CAP13 protected review signals

Close before changed retry

STRONG SIGNAL

Capability matrix uses evidence strength honestly; confidentiality passes; gaps and specific scope/promotion ask are visible.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

No title this cycle; 90-day expanded-scope plan.

CAP14 protected review signals

Close before changed retry

STRONG SIGNAL

Role requirements map to proof/gaps; public story is truthful; production gaps are explicit; Apply/Maybe/Skip has reasons.

IF THIS IS MISSING

Keep the CAP stage Developing. Repair only the failing reasoning/control. Do not overwrite or delete the first attempt and do not substitute presentation polish for evidence.

CHANGED RETRY

Target role increases SQL/Python emphasis.
